Behind the Scenes

7th ~ 8th September 2019

Welcome to the South Devon Railway's Behind the Scenes Weekend.

This weekend is your chance to take a look behind the scenes of our railway and discover the rewarding opportunities available for volunteers. We have plenty for you to see including Behind the Scenes Tours & Shunting Demonstrations and our trains will be running all day.

What's on Guide

Our Behind the Scenes Tours will be operating between 11am - 4pm on both Saturday and Sunday.

You can get up close to the wagon restoration facilities at Totnes Riverside and see the station from a whole different perspective.

From the platform, you can watch steam locomotive L92 performing shunting demonstrations around Buckfastleigh at 12:15pm and 2:40pm. Goods trains will be arriving at Buckfastleigh at 11:00am & 1:55pm and departing at 12:45pm & 4:55pm.

You can reach our Gardens via the footbridge where you will find our Miniature and Garden Railways (weather permitting). Tours of the miniature railway shed and workshop will start by the entrance of the Garden Railway.

Adjacent to the Garden Railway you will find our newly built running shed, where you can visit the footplate of steam locomotive 3205, view some of our heritage carriages that are currently under restoration and if you're feeling peckish tea and cake will also be available.

Guided tours of our workshop will take place at certain times throughout the day, for more information please speak to a member of our running shed team. Opposite the shop and café you can visit our Carriage and Wagon Workshop where you will see one of our major coach restoration projects. The original Buckfastleigh Signal Box will be open for viewing at the North end of our site.

If you are interested in becoming a volunteer then please email us at volunteering@southdevonrailway.org or give us a call on 01364 644370.

We hope you have an interesting and enjoyable day with us; why not share your Behind the Scenes experiences via our social media pages.
